MUJI Philosophy & Values

Philosophy

- 1. Selection of materials:**
We use many recycled materials, with an emphasis on quality. This enables us to create low-priced, high-quality products.
- 2. Streamlining processes:**
Processes that have no bearing on a product's quality such as sorting, sizing, and polishing are eliminated. Focusing on true quality, MUJI's processes eliminate waste and reduce costs.
- 3. Simplification of packaging:**
MUJI seeks to highlight products' natural colors and shapes. MUJI products appear in simple packaging bearing only product related information and a price tag.

Values

- 1.** MUJI is not a brand whose value rests in the frills and "extras"
- 2.** MUJI is simplicity – but a simplicity achieved through a complexity of thought and design
- 3.** MUJI's streamlining is the result of careful elimination of gratuitous features and design unrelated to function
- 4.** MUJI, the brand, is rational, and free of agenda, doctrine, and "isms"
- 5.** MUJI aspires to modesty and plainness, to appeal to a wide group of people
